Full Stack Developer, Prushal Technology PVT.LTD
Project Experience -

02/2025 – Present
Pune, India

1. BiggBonusPoints – Loyalty & Reward Platform

BiggBonusPoints is a Loyalty & Reward Point Platform that connects Super Admin, Corporate & Individual Merchants, and Customers in a unified ecosystem, enabling merchants to **award loyalty points** to customers and manage transactions seamlessly.

Responsibilities:

- Developed the Super Admin web portal for merchant, customer, and employee management.
- Designed and implemented the mobile app interface for merchants and customers.
- Integrated both web and mobile applications with REST APIs for secure point transactions.

Achievements:

- Gained hands-on experience with React Native and Django (Python)
- Strengthened skills in REST API integration and MySQL database management.

Tech Stack: React Native, Django (Python), MySQL

2. BSafe -

Responsibilities:

- Developed and integrated a Chatbot user interface using WebSockets for real-time communication.

- Designed and implemented the EyeBlink UI, integrating it into the application for enhanced usability.

Achievements:

- Gained hands-on experience with React Native and Websockets

Tech Stack: React Native, Django (Python)

3. Attendance System -

Attendance System is a web-based system for tracking volunteer attendance and managing user roles (Admin, Units), with support for **multiple events across locations and dates**.

Responsibilities:

- Designed and implemented the UI using React.js, Redux, and Ant Design.
- Integrated the frontend with Django APIs for attendance and role management.

Achievements:

- Gained hands-on experience with React.js, Redux, AntD, and Django (Python).

Tech Stack: React JS, Redux, AntD , Django (Python)

Worked on **InfiChat , SNCF, HSuit, GMTT Chatbot, SNCF Chatbot, Learning Management System (LMS)** etc. contributing to design, development, and feature enhancements.
